## SOFTWARE DEVELOPER

[Email](#) | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Medium](#) | [Portfolio](#)

### SUMMARY

EXperienced full-stack software developer With over 3+ years. Proficient in JavaScript, React, Redux, MySQL, and cloud-based technologies. Completed Google IT and Data Analysis Professional Certificate programs with extensive hands-on experience in troubleshooting, data manipulation, system administration, and software development. Eager to leverage my skills in IT, Data Analytics, and Software Development for impactful contributions to any organization.

### SKILLS

- **IT & Technical Support:** Systems troubleshooting, Operating systems (Windows/Linux), Network services, Event Viewer, Task Manager, Hardware/Software installation, Infrastructure management, Putty
- **Data Analytics:** SQL, Excel, Tableau, Python, Power BI, Data cleaning, Data visualization
- **Front-End:** JavaScript, React, Redux, jQuery, HTML5, CSS3
- **Back-End:** Ruby, Rails, MySQL
- **Tools & Technologies:** Git, GitHub, TDD,Figma,Canva,VsCode,npm,Tableau,Task Manager,Event Viewer, Netlify, Chrome Dev Tools, Webpack,, Putty
- **Professional:** Remote Pair-Programming, Teamwork, Mentoring
- **Soft Skills:** Remote collaboration, Pair-programming, Mentorship, Problem-solving, Flexibility

### EXPERIENCE

#### HIGHLIGHTED PERSONAL PROJECTS

##### Full Stack Web Developer

Remote  
Jan 2023– Present

[Super Mario info](#) – Dive into the world of Super Mario characters with this fun and informative app. Users can explore detailed information about their favorite characters, including their backstories, abilities, and trivia.

- Built with: React.js, Redux, CSS

[Food-Preservation](#) Its the draught web app which deals with food consistency and helping privileged people to help them and teach them about how to preserve food in a time of drought

- Javascript, Mui,Css, material, and Reactjs

[Space Travelers Hub](#) – A web application for a company that provides commercial and scientific space travel services.

- Built with: React.js, Redux-toolkits, CSS

[Liquor-Store](#) – Liquor Store The Web App that Sales different types of Alcohol and user friendly and provides seamless use and easy to navigate .

- Built with: CSS3, JavaScript, React, Redux,, API and Stripes for back-end

#### MICROVERSE:

- Collaborated with a team of programmers and software developers on a milestone project, focusing on the design and implementation of efficient and reliable systems. This project, a group capstone endeavor, aimed at delivering high-quality solutions tailored to meet specific objectives, not for external clients, but to enhance our collective learning and skill development.
- Implemented comprehensive tests for each functionality in the Milston project to ensure seamless operation and enhanced stability.
- Collaborated with the team to enhance the application's performance and reliability through rigorous testing and debugging processes.

MICROVERSE

Remote

Mentor Volunteer:

July 2023 – February 2024

- Mentored 10-15 junior web developers remotely using tools like Zoom and Slack.
- Proposed and implemented 10-15 code organization improvements to enhance code quality and performance.
- Offering strategic advice and motivation tips, contributing to 10-20 students maintaining program longevity.
- Conducted code reviews for peer mentors, offering strategic advice on project implementation.
- Conducted collaborative Zoom meetings with peers to address and resolve project challenges effectively.

## EDUCATION

MICROVERSE

September 2022 – February 2024

**Remote Full Stack Web Development Program, Full-Time Remote**

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Dedicated substantial effort to fostering meaningful peer-to-peer online engagements, cultivating robust relationships with individuals spanning a spectrum of diverse communities and cultural backgrounds

Google

February-2024 – September-2024

**Google IT Professional-Certificate—2024**

- Gained hands-on experience in IT support, networking, systems administration, and cloud computing.
- Developed expertise in using Event Viewer and Task Manager to monitor and manage system performance, troubleshoot issues, and optimize resource usage.
- Utilized Putty to establish secure connections to remote systems and manage server configurations in a command-line environment.
- Acquired knowledge in network services, virtual machines, and operating system management to support cloud-based infrastructures.

Google

2024

**Google Data-Analysis-Professional-Certificate—2024**

- Acquired practical experience in data analysis, including data cleaning, SQL queries, and data visualization.
- Used Tableau and Power BI to create interactive data visualizations and dashboards that communicated insights effectively.
- Gained proficiency in Python for data analysis tasks, including data manipulation and reporting.

## KEY COMPETENCIES

- **Problem-Solving:** Applied technical knowledge from IT and software development to troubleshoot and resolve complex issues in both technical and user-experience domains.
- **Collaboration:** Worked in diverse teams across different time zones, demonstrating excellent communication and teamwork.
- **Adaptability:** Transitioned from software development to IT support and data analysis, leveraging core skills to excel in various technical environments.
