

RICHARD SIKAONGA

SOFTWARE DEVELOPER

[Email](#) | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Medium](#) | [Portfolio](#)

SUMMARY

Experienced Software Developer with 1300+ hours collaborating across international teams of 20+ developers. Proficient in mastering new languages and leading coefficient teams to deliver quality products on time. Renowned for enhancing UI/UX with React.js and driving backend development with Ruby on Rails and Postgres.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3

Back-End: Ruby, Rails, MySQL

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

Interpersonal Skills: Responsibility, Dependability, Flexibility, Motivation, Leadership, Active listening

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer and Front-End

Remote

Jan 2023– Present

[Super Mario info](#) — Dive into the world of Super Mario characters with this fun and informative app. Users can explore detailed information about their favorite characters, including their backstories, abilities, and trivia.

- Built with: React.js, Redux, CSS

[Book-an-Appointment](#) — It features a robust authentication and authorization system to ensure secure access and user privacy.

- Built with: Ruby on Rails as the backend, and Reactjs as the front end

[Space Travelers Hub](#) — A web application for a company that provides commercial and scientific space travel services.

- Built with: React.js, Redux-toolkits, CSS

[Riya Movies App](#) — Movie's web application that retrieves movies and TV shows from an API and updates them within the app. Users can add comments and like their favorite titles.

- Built with: HTML5, CSS3, JavaScript, Webpack, and Fetch API

MICROVERSE:

- Collaborated with a team of programmers and software developers on a milestone project, focusing on the design and implementation of efficient and reliable systems. This project, a group capstone endeavor, aimed at delivering high-quality solutions tailored to meet specific objectives, not for external clients, but to enhance our collective learning and skill development.
- Implemented comprehensive tests for each functionality in the Milston project to ensure seamless operation and enhanced stability.
- Collaborated with the team to enhance the application's performance and reliability through rigorous testing and debugging processes.
- Assisted in the refinement of project requirements and specifications through ongoing testing and feedback loops

MICROVERSE

Mentor Volunteer:

Remote

July 2023 – February 2024

- Mentored 10-15 junior web developers remotely using tools like Zoom and Slack.
- Proposed and implemented 10-15 code organization improvements to enhance code quality and performance.
- Offering strategic advice and motivation tips, contributing to 10-20 students maintaining program longevity.
- Conducted code reviews for peer mentors, offering strategic advice on project implementation.

- Conducted collaborative Zoom meetings with peers to address and resolve project challenges effectively.

EDUCATION

MICROVERSE

September 2022 – February 2024

Full Stack Web Development Program, Full-Time Bootcamp Remote

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Dedicated substantial effort to fostering meaningful peer-to-peer online engagements, cultivating robust relationships with individuals spanning a spectrum of diverse communities and cultural backgrounds

CERTIFICATION

Full-Stack Web Development Certification

Issuing Organization: Microverse Bootcamp

Date of Completion: December 2023

Credential ID: [View-Here](#)

Description:

Completed a comprehensive Full-Stack Web Development certification, covering front-end and back-end technologies. Acquired proficiency in JavaScript, HTML, CSS, React, Redux,, Ruby, Ruby on Rails, and MySQL. Developed expertise in creating dynamic, responsive, and seamless user interfaces, building RESTful APIs, and managing databases.

Google IT Support Professional Certificate

Issuing Organization: Google

Date of Completion: September 2024

Credential ID: [View-Here](#)

Description:

Completed a rigorous IT support certification focusing on troubleshooting, networking, system administration, operating systems, and IT security. Acquired hands-on experience using tools such as Event Viewer, Task Manager, and networking services. Demonstrated proficiency in problem-solving and supporting IT infrastructure across multiple platforms.

Google Data Analytics Professional Certificate

Issuing Organization: Google

Date of Completion: January 2025

Credential ID: [View-Here](#)

Description:

Earned a professional data analysis certification from Google. Gained hands-on experience with data cleaning, visualization, and analysis using tools such as Tableau, spreadsheets, SQL, and R programming. Developed an understanding of statistical methods, data-driven decision-making, and effectively communicating insights to stakeholders.
